Field trips and educational travel

We have operated educational trips in Iceland since 1990 and are very proud of the high reputation we have gained. Most of the schools, colleges and universities we look after have travelled with us before and know they can rely on the service and support we provide. The information describes the most popular services we provide but we can, of course, arrange whatever you wish. Smaller and larger groups are welcome and teachers should contact us directly to see what is available.
